ABOUT ME

A motivated and hardworking fresh graduate with a Bachelor of Computer Science (Hons.), equipped with a solid foundation in software and web development, as well as data analysis. Demonstrated leadership through academic projects and extracurricular roles. Adaptable, eager to learn, and committed to continuous professional growth in the tech industry.

EDUCATION

Bachelor of Computer Science (Hons.)

Mar 2023 - June 2025

Universiti Teknologi Mara (UiTM), Shah Alam

- Current CGPA: 3.39
- Relevant Courses: Software Engineering, Data Structure, Discrete Structures, Algorithm Analysis and Design, Data Mining, Data Visualization, Statistics
- Awards & Honors: Dean's List (1 out of 3 Semesters)
- Activities and Societies: Young Officer of Komander Kesatria, Program Director of International Webinar, Participant in Kayak Expedition (30KM at Pulau Pangkor), Member of Student Leadership and Youth Development Programs

Diploma In Computer Science

Oct 2020 - Feb 2023

Universiti Teknologi Mara (UiTM), Kuala Terengganu

- Total CGPA: 3.59
- Relevant Courses: Object Oriented Programming (Java), Introduction to Probability and Statistics, Discrete Mathematics, Visual Programming
- Awards & Honors: Dean's List (4 out of 5 Semesters)
- Activities and Societies: Komander Kesatria Member (Commanding Officer for Terengganu, Awarded Terengganu Branch Best Komander

EXPERIENCE

Data Science and Artificial Intelligence Intern

Mar 2025 - June 2025

Aga Touch Sdn. Bhd., Shah Alam

- Implemented web scraping and Named Entity Recognition (NER) workflows using NLTK, Hugging Face, spaCy, and Stanza, focusing on keyword extraction and text analysis.
- Develop a chatbot for the company website using CloudFlare, Python, and RestAPI.
- Explored LLM APIs for advanced text processing and developed foundational skills in AI-generated image and video creation.
- Developed basic web applications using Laravel, enhancing backend and frontend integration capabilities.
- Designed and deployed a real-time project management tool in Streamlit, integrating Gantt chart and matrix views for live project tracking, timeline visualization, and streamlined task management.
- Conducted hands-on projects involving data scraping, visualization, and real-world dataset analysis, translating raw data into actionable insights.

Khazanah Youth Development Programme (K-Youth)

Aug 2024 - Sep 2024

Khazanah Nasional Berhad, Kuala Lumpur

- Completed 129 hours of online training covering a comprehensive curriculum designed to enhance industry-relevant skills.
- Achieved 100% assessment success rate, demonstrating technical expertise and proficiency in key subjects.

Web Design and Digital Marketing Internship

Sep 2022 - Feb 2023

Tycoon IM Sdn Bhd, Puchong

- I acquired extensive experience in Digital Marketing and website development using WordPress.
- Contributed to designing, developing, and enhancing the company's online presence through WordPress-based platforms.
- Excelled in a dynamic and collaborative work environment, ensuring high-quality deliverables.
- Developed proficiency in strategic planning, content creation, and SEO optimization tailored to WordPress websites.
- Successfully executed marketing campaigns that improved online engagement and business growth.

SKILLS

- Programming Languages: C++, C#, Java, Python, PHP, SQL, CSS
- Web Development: WordPress, Figma, HTML, CSS, JavaScript, MySQL, Node.js, Bootstrap, Streamlit, Laravel, Flask
- Tools & Platforms: Jupyter Notebook, Git/Github/Git Lab, Oracle SQL Developer, SQL, Weka, Power BI, Azure, Obsidian, Cloudflare
- AI & Machine Learning: TensorFlow, Keras, PyTorch, CNN, Scikit-learn, OpenCV, Pandas, LLM, NER, API, RestAPI
- Soft Skills: Leadership, Communication, Teamwork, Multitasking, Problem-Solving, Critical Thinking
- Languages: Malay (Native), English (Professional), Japanese (Basic)

PROJECTS

Customer Emotion Recognition Application (Final Year Project)

Mar 2024 - Jan 2025

- Developed a real-time Customer Emotion Recognition System using Python, TensorFlow, and CNNs, achieving 94% validation accuracy and 92% test accuracy with a Kaggle dataset of over 35,000 images
- Built a user-friendly application with Python, integrating real-time emotion analysis to enable supermarket staff to personalize customer interactions

Shape Classification System

Mar 2023 - Aug 2023

- Built a CNN-based Shape Recognition System using Python, TensorFlow, and Keras, achieving 97.81% accuracy on test datasets across five shape categories
- Enhanced tools for educational and industrial applications by enabling real-time shape classification with Jupyter Notebook

CORSX Malaysia Online Store System

Mar 2022 - Aug 2022

- Developed a web-based e-commerce platform using PHP and Oracle SQL Developer, focusing on inventory and order management.
- Designed a customer-centric interface with CSS and integrated admin tools to streamline operations and boost CORSX Malaysia's online presence

LICENSES & CERTIFICATIONS

- **Cybersecurity Basics** – edX
- **Microsoft Certified: Azure AI Fundamentals** - Microsoft
